San Antonio, TX 78226
Bexar County
US

The EIT standards can be found at: www.Section508.gov/

25. Data Universal Numbering Systems (DUNS) Number

130889145

26. Central Contractor Registration

Encore Support Systems is a registered contractor in the Central Contractor Registration (CCR) database at: www.ccr.gov.

27. DESCRIPTION OF LOGWORLD SERVICES

a) SIN 874-501 - Supply and Value Chain Management & SIN 874-501 (RC) – Supply and Value Chain Management (Recovery Purchasing)

Services: Includes all phases of planning, acquisition and management of logistics systems. These services include, but are not limited to planning, acquisition, design, development, testing, production, fielding, management, operation, maintenance, sustainment, improvement, modification and disposal. Logistics consulting for planning for the acquisition and life cycle phases of supply and value chain systems including the following:

- Defining and establishing program objectives, strategies, plans and schedules;
- Develop milestone documentation; market research and acquisition planning;
- Material requirements identification, planning, acquisition and management;
- Develop specifications or performance based work statements and task estimates;
- Develop, document and support maintenance procedures and technical manuals;
- Configuration data management and related documentation; expansion and consolidation studies, field problem analysis and recommendation of corrective actions and system modernization;
- Needs assessment/system assessment; inventory/asset/vendor management; inventory management and operation (inclusive of salvage, recycle and/or disposal management); operation of warehouses, stockrooms, storage facilities or depots.
- Fulfillment systems and operations; platform management;
- information logistics processing systems analysis design, and implementation;
- Staging, shipping, receiving, packing, crating, moving and storage (excluding household goods);
- Packaging, labeling, bar coding system consultation, design, implementation, operation and maintenance;
- Design and installation of material handling systems;
- Hazardous material storage and handling (non-radioactive only);
- Warehouse and location management systems;
- Recycling program management of warehousing materials; preservation and protection of specialized inventory or documents;
- Maintenance, repair and overhaul (MRO) support and/or support process management;
- Aircraft repair and maintenance;
- Ship repair and maintenance;
- Property disposal management;
- Logistics strategic planning services;
- Logistics systems engineering services;
- Logistics program management services and support;
- Unique Identification (UID)/Radio Frequency Identification (RFID) services;
- Program and project management;
- Acquisition and life cycle management; spares modeling;
- Supply chain integration planning; and,
- Global integrated supply chain solutions – planning and implementation. (Note: Acquisition functions can not be procured as stand-alone services.)

b) **SIN 874-503 - Distribution and Transportation Logistics Services & SIN 874-503 (RC) - Distribution and Transportation Logistics Services (Recovery Purchasing)**

Services: Types of services that may be performed under this Special Item Number include:

- Distribution and transportation logistics services such as planning and designing, implementing or operating systems or facilities for the movement of supplies, equipment or people by road, air, water or rail,
- Movement and short-term storage (excluding household goods);
- Transportation system development and management;
- Distribution and transportation logistics consulting;
- Carrier management and routing;
- Freight forwarding, consolidation and management;
- Third-party logistics (3PL);
- Facilitating customs processing;
- Electronic Freight Manifest (EFM) systems;
- Tracking system analysis, design, operations and management;
- Shuttle services; and,
- Program and project management.

Note: Commercial passenger airline services covered by the Airline City Pair Program and courier services covered by Schedule 48, Transportation, Delivery and Relocation Solutions are excluded.

c) **SIN 874-504 - Deployment Logistics Services & SIN 874-504 (RC) - Deployment Logistics Services (Recovery Purchasing)**

Services: Include, but are not limited to:

- Providing expert advice, assistance, guidance, management, or operational support services that permit the deployment of supplies, equipment, materials and associated personnel.
- Deployment logistics consulting;
- War gaming (field exercises);
- Contingency planning;
- Inventory and property requirements planning, movement, storage and accountability systems;
- Asset management (including pre-positioning assets); space planning and project integration/implementation;
- Public and private sector support and/or resources;
- Facilitating customs processing/accountability;
- Scenario based field exercises;
- Communication and logistics systems design, plan, deployment and operation;
- Medical and emergency unit storage and restocking management;
- Program and project management

28. LABOR CATEGORIES DESCRIPTIONS

01. Engineer (Logistics)

Minimum/General Experience: Experience in engineering logistics as it relates to: concept, requirements analysis, trade studies, design, rapid prototyping, manufacturing processes, systems engineering and integration, production engineering, industrial and project management, system maintenance, quality assurance, test and evaluation, software development/integration, field engineering, and logistics. Additional experience includes the application of automated design tools to create and model system designs and processes, development of models, conduct of simulations, and performance of hardware/software assessments. General experience includes knowledge and application of engineering tools/techniques throughout the life cycle, and skills in interfacing software with imbedded and non-imbedded hardware systems.

Functional Responsibility: Performs professional work in research, development, design, testing, analysis, production, construction, maintenance, operation, planning, estimating, or standardization of facilities, systems, structures, processes, equipment, devices, or materials, requiring knowledge of the art and science of engineering. Provides comprehensive definition of all aspects of system development from analysis of mission needs to verification of system performance. Analyzes/develops system requirements; develops specifications, solutions and alternatives as part of engineering studies; and assesses risks and costs to satisfy those requirements. Formulates preliminary designs, performs tests, takes measurements, or performing system analyses of simulations. Applies reverse engineering and reengineering disciplines to develop production planning and manufacturing documents. Develops block diagrams and logic flow charts and translates detailed design into prototype or pre-production hardware/software. Prepares schematics, layouts, and diagrams; develops design solutions, and prepares relevant procurement and design documentation. Implements performance and technical standards and conducts appropriate tests to assess, debug and validate system performance.

Education and Experience Levels:

Labor Category	PhD Plus Specific Experience	MS/MA Plus Specific Experience	BS/BA Plus Specific Experience	AS Plus Specific Experience	High School Plus Specific Experience
Engineer II	2 Years	4 Years	6 Years	8 Years	10 Years
Engineer III	4 Years	6 Years	8 Years	10 Years	12 Years

02. Logistics Analyst

Minimum/General Experience: Proven project related experience with expertise in the logistics field. Demonstrates a thorough knowledge of analysis principles, theories and techniques to solve specific problems and formulate solutions. Evaluates complex data and prepares reports of results. Strong oral and written communication skills and experience with developing and maintaining project documentation.

Functional Responsibility: Provides design, analysis, implementation, and modification of logistics. Systems and process support. Defines and uses analytical and quantitative methods for modeling logistics support. Develops support documentation to include, as a minimum, elements such as support equipment, technical orders, supply support, computer resources support, and maintenance/support concepts. Provides acquisition logistics expertise in the procurement and management processes of support equipment, technical orders, spares, and computer resources in logistics associated reliability and maintainability functions.

Education and Experience Levels:

Labor Category	PhD Plus Specific Experience	MS/MA Plus Specific Experience	BS/BA Plus Specific Experience	AS Plus Specific Experience	High School Plus Specific Experience
Logistics Analyst II	1 Year	1 Year	2 Years	<8 Years	6 Years
Logistics Analyst III	<4 Years	2 Years	4 Years	<10 Years	8 Years
Logistics Analyst IV	<4 Years	4 Years	6 Years	<12 Years	10 Years
Logistics Analyst V	<4 Years	6 Years	8 Years	<14 Years	12 Years

03. Subject Matter Expert

Minimum/General Experience: Recognized authority and demonstrated ingenuity, creativity and resourcefulness in the areas of business management, logistics, supply chain management, procurement law, operations research and systems analysis, systems acquisition and planning, quality assurance, and technology transfer. Proven project related experience is required plus recognized expertise in technical area or field through the publishing of papers, advanced degrees or technically unique project work.

Functional Responsibility: Develops and applies advanced technologies, theories, concepts, best industry practices, leading-edge technology, and innovative solutions to logistics problems. Develops and/or reviews study plans and monitors/reports project status. Possesses unique experience, skills, and expert knowledge in highly specialized technical, functional, and/or process areas within the related discipline.

Education and Experience Levels:

Labor Category	PhD Plus Specific Experience	MS/MA Plus Specific Experience	BS/BA Plus Specific Experience	AS Plus Specific Experience	High School Plus Specific Experience
Subject Matter Expert III	6 Years	8 Years	10 Years	12 Years	>14 Years

04. Administrative Specialist

Minimum/General Experience: Must have a High School diploma and a minimum of two (2) years experience providing administrative support to logistics, technical, and management-level personnel. This includes, but not limited to, documentation planning and support, project administration, general office support, word processing, spreadsheet development, executive secretarial support, human resource planning, event planning and administration, office relocation planning, mail services, records data input, etc.

Functional Responsibility: Provides administrative support to managers, engineers, specialists and analysts. This includes, but is not limited to documentation planning and support, project administration, general office support, executive secretarial support, human resource planning, event planning and administration, making travel, meeting, or conference arrangements, office relocation planning, mail services, records, data input, etc. Properly prepares, formats, and prints administrative correspondence.
